Funds raised during Look Good Feel Better Week will assist the national, public-service program in helping Canadian women living with cancer to manage the appearance-related side effects of cancer and its treatment.

The first Look Good Feel Better workshop was held in September 1992 at Princess Margaret Hospital in Toronto. According to Dr. A.D. DePetrillo, Professor of Obstetrics, Gynecology and Surgery at Princess Margaret Hospital, "Look Good Feel Better is truly an inspiring program which has a positive impact on the morale of people with cancer. Through simple techniques, the program helps to boost the self-image of women undergoing cancer treatments. When receiving chemotherapy and radiation, a healthy optimistic attitude plays a tremendous role."

Look Good Feel Better is sponsored by the member companies of the Canadian Cosmetic, Toiletry and Fragrance Association (CCTFA). Since 1992, the program has helped more than 450,000 women living with cancer to learn about skin and hair care and the use of cosmetic techniques. The cornerstone of the program is a free, two-hour workshop currently offered at more than 85 hospitals and cancer-care facilities across Canada. For further details, visit lookgoodfeelbetter.ca
